

COVID-19 Vaccine for Children

Did You Know?

- **COVID-19 vaccines are safe and effective.**
- **COVID-19 vaccines were authorized by the Federal Food and Drug Administration only after they were shown to be safe and effective in studies.**
- **Adults and children age 12 and older are now eligible to receive the COVID-19 vaccine.**
- **People age 12-17 are eligible to receive the Pfizer vaccine.**
- **A legally authorized representative (parent or guardian) must give permission or consent for vaccination of someone 12-17 years of age.**
- **A parent or guardian does not need to accompany the minor to their vaccination appointment, but must complete a pre-vaccination screening form.**
